Binandi Chandra Medhi College

Ramdia

**Sessions : 2015-16, 2016-17**

*Vision:- Empowering the Youth of our Country*

*Objectives:- Quality enhancement of Higher Education.*

*Mission:- Collective and participatory with decentralised Mechanism.*

## *Principal's Message:*

Ramdia, one of the historical places of Assam, is situated near Hayagriva Madhaba temple and Poa-Mecca of Hajo. The name Ramdia may be said as a compound word Ram and Dia where Ram means big and Dia means Char/Chapori which means a big Char/Chapori village. This historical village is the birth place of some famous persons like Rai Bahadur Kaliram Medhi, Binandi Chandra Medhi, Dr. Jyoti Prashad Medhi and many other prominent persons. It was a dream of the people of greater Ramdia and its nearby areas to impart quality higher education among the people of that area, and accordingly a group of dedicated persons with their relentless and untiring effort has established Ramdia College in 1992. Later on, the college was renamed as Binandi Chandra Medhi College, Ramdia as a gesture of gratitude.

Binandi Chandra Medhi College, Ramdia, the only higher educational institution has completed its silver jubilee year in 2016. During this period the college has been faced various hurdles and overcome these problems with courage and reached the present position. In 1992, the college was started with only 70 students but at present about 1000 students take education in this institution. The result of this college is also improving gradually but it is far away to reach its goal. The teachers and the staff of the college have been working their level best to reach the ultimate goals. The role of the common people for the development of the college is memorable. Through this message I acknowledge this and hope the help of well-wisher in future for further development of the college.

This is the first edition of the news letter of our college. Through this news letter one can easily find out the true image of this institution. At the end I would like to thank all the members of the editorial board, college family and the well wisher of the college for their co-operation and hard work for bring out the first edition of this news letter.

Dr. Ashit Kr. Paul  
Principal i/c  
B.C. Medhi College, Ramdia

## From the Editor's Desk:

One can trace the evaluation of an institution from its publications. This maiden issue of 'News Letter' is one which chronicles and highlights the Activities of 'Binandi Chandra Medhi College', Ramdia for the first time. It has been passed two and half decade since its establishment in 1992 but got registration in 2F and 12B in the year 2014. Notifying condition is that it has provincialised on 14th August 2013. Being in rural area most of the students of the college may supposed to be less active in respect of global perstictive

Still as teachers we have the responsibility not only to teach the students about the prescribed text books but also keeping pace with the changing scenario, to prepare them to face the challenging requirements in the life ahead. The college always expects to provide the students with the best of opportunities to receive training in various fields. Living in a very crucial period for survival, we are proud to be holding programmes in our college from time to time so that the students, faculty and society in general get an opportunity to enlighten themselves and get inspired.

An institution is known by the qualities and achievements of both its student and faculty bodies. As such we have strived to highlight some of the achievements of our students and teachers, it is also a way of letting the achievers know how proud we are about them.

However, small achievements are achievements and our college has been trying to overcome various hurdles to achieve academic success in all its various levels as well as to acquire excellence in all its activities to be able to make a mark in the society.

As the editor of this first issue of the News Letter of the Binandi Chandra Medhi College, I am very happy to present before you an all round record of our activities and achievements during the year from 15th to 17th April, which we hope would lead us to the ultimate goal of achieving the statue of an institution of class, excellence and reputation. With the increase of activities in the college, I am pleased to present an eight page News Letter so far.

On behalf of the members of IQAC, i.e. the editorial board here I take the opportunity to thank all my colleagues for their help and cooperation in bringing out this first issue of the News Letter. My sincere gratitude also to the Honourable Principal and other colleagues for all their encouragement, support and guidance.

As, I conclude, here is wishing everyone happiness, good health and success.

Dr. Satyabati Medhi  
Convener , IQAC

## The College Foundation Day (Silver Jubilee Year)
